What is a Dashboard?

Dashboard is where you will see login activities or utilization and download reports such as Login Records, Print Statement Activity and Executive Report.

Usage - it shows a graph and percentage of who viewed and have not viewed their statement and let's you download a .csv format report which shows Employee ID, Name, Email Address, Inactive (Yes or No), Last Login (date), Platform and Browser.

Utilization - detailed report that shows who have viewed and have not viewed their statement yet.

Compensation - shows charts and details of the total compensation of the whole company, breakdown of employees' cash compensation and benefits and number of employees.

Executive Report - a report that uses your brand colors and logo that shows line item of programs you offer to your employees and it's participation ratio. This can be used for reporting or presentation purposes.
